

## Terms and Conditions for Furniture and Goods Removals:

All goods have basic insurance whilst in the truck. Please contact us regarding high-value goods insurance and to discuss your individual insurance requirements.

Our European removal company trucks are very large and need good access for them to get to the property, we will bring the goods to the nearest point but please inform us if you have limited access so necessary measures can be taken.

Because of the distances involved, we cannot visit every removal to assess it. Therefore, we rely upon accurate information supplied to us by our customers. Therefore, we rely on you, the client, to send us a detailed list of all goods to be transported so we can accurately assess the space required on the truck. We understand this may be quite a task but if you do it room by room it becomes much easier to make your list.

For example:

Bedroom

King size bed

medium size wardrobe not dismantled chest of drawers with 4 drawers

2 bedside cabinets

1 x double wardrobe = 5 boxes 50 x 50 x 50

Guideline for assessing boxes: 5 x kitchen cupboards 60 x 60 x 80 will need 9 boxes

If you work to these basic suggestions, you will be very close to 100 % correct with your list

If goods are not listed, it may be that there will not be enough space on the truck. If there is enough space on the truck, we reserve the right to charge extra for the extra space taken.
